

Soft-Skills Assignment

Module 4) HR Questions

Hello sir,

As a software tester, my career goals are focused on enhancing my analytical skills, understanding advanced testing frameworks, and improving the quality of the software. In the next few years, I see myself taking on more complex tasks and displaying greater autonomy.

I am interested in various roles and industries that align with my skills and passion for ensuring high-quality software products. Here are some of the roles and industries that interest me Test Engineer, Quality Assurance Engineer, Test Automation Specialist.

I aim to achieve the specific goals and milestones Test automation, Test Data Management, Defect Reduction, Certification.
